Tuesday, April 23 – Conversations about our commitment to the Planet

9.30 – 11h– Earth Solutions

Join us for this open conference about global plastic problem, which will give the opportunity to the different participating associations to discuss their activities and how the public can become involved.

ETSIAMN UPV Building 3P – Salón de Actos (<http://www.upv.es/plano/plano-2d-es.html>)

Participants:

- FabLab Cuenca & Precious Plastics CLM
- Bioagradables
- Plastic Oceans Europe
- IMEDMAR - UCV
- Càtedra de Cultura per a l'Emergència Climàtica - UV
- Medusapp

11:30 – 13h– Plastic recycling & digital fabrication- jewelry making workshops for 25 students from IES Abastos in American Space Valencia

Participants will be able to create their own personalized jewelry from recycling plastic pieces fabricated with injection machine & laser cutter. During the workshop they will learn how to classify plastic, how to process the & mix the colors to create personalized molds and pieces and manually will learn how to assemble each design to wear their jewelry.
